MRS E. KIDDER'S

Cholera, Dysentery,

AND

Diarrhœa Cordial,

AN

Immediate and Perfect Remedy,

FOR

Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement—

It has been before the public for more than seventeen years, and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE

OF THE

CHOLERA,

It has been thoroughly tested in every country and every climate, and its effect has everywhere proved the same,

SURE TO CURE,

even where the disease has advanced to its last stages

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA, both at home and abroad and of the little success which has thus far attended the attempts to check its frightful inroads on human life

Such being the fact it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera, and eradicating it from the system

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine, known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine when the disease had advanced to its last stages

It is hoped that every housekeeper will keep the Cordial at hand, and if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting, relieves [illegible] the bowels to a perfectly regular and healthy state however severe the attack may be, or however low the patient may have become, it invariably restores

The Severest Cases of Dysentery

are immediately counteracted, the pains allayed, the bowels healed, and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours

Chronic Diarrhœa,

[illegible] her in children or adults, of months or years, [illegible] most readily cured with this Cordial [illegible] they may be reduced to mere [illegible] immediately strengthens, and shortly [illegible] to perfect health

Cholera Infantum.

It has saved the lives of many thousand children [illegible] to death's door by this complaint,— [illegible] immediate relief, and they very soon [illegible]

Sea Sickness.

[illegible] most pleasant and desirable remedy for [illegible] It checks the vomiting and readily [illegible] It invariably checks vomiting [illegible] from any cause whatever

Children that are Teething,

[illegible] inclined to Diarrhœa should always be provided with this medicine, as it will keep the bowels regulated and keep off the Canker. It is wholesome, safe and pleasant to the taste, and children are fond of it, and will take it without trouble or dislike

For General Debility and Dyspepsia,

it is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or distressing the stomach

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution

CAUTION.

Be sure that you obtain MRS E KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country

It is put up in bottles holding nearly a quart, intended for family use, and sold at One Dollar per bottle.

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured; persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

Home Testimony

We, the undersigned, have ourselves or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended.

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city, and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be deceived.

AGENCY FOR BUSINESS

With U. S. Patent Office,

WASHINGTON

NO. 23 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, whereby a Patent may be procured about six weeks earlier, he continues to forward them free of expense—prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions, and of consulting in respect to them, matters in general of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber [illegible] to inventors desirous of procuring Pa[illegible] and information which in other respects may be difficult of attainment.

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq. of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable con[illegible] the Patent Office.

Cholera Teachings.

We find by our late foreign papers that very rigid examinations have been made in the cities of Europe in connection with the spread of the Cholera, and that the fact is well established that wherever for want of proper drainage, of fresh air, of moderate cleanliness, there cholera raged as its proper home. Those living in these unhealthy, stived and loathsome situations, with [illegible] raging about them seem to be stricken in a feeling of despair and without sufficient energy and reason to adopt the simplest methods, or indeed any methods of self protection. So generally was this the case, that in London, Manchester, Glasgow, and other places it has been found necessary to establish a health police visitation from house to house and to adopt sanitary measures of cleansing, removing and an administration of medicine to those laboring under premonitory symptoms of cholera.

The brief experience in this city shows that among a large portion of our foreign population, something of this kind is necessary here. In some instances here, narrow apartments are occupied by the living in which death by cholera has taken place, without the slightest regard to cleanliness, and beds occupied in which the previous night a subject died! Vile apartments from which sickness, death, panic, and the voice of the authorities drove out the huddled and half [illegible] dwellers, already begin to be occupied under the same old processes of putrifaction, and preparation for sudden death by cholera or some other malignant disease. It is thus that the atmosphere of our city is to be continued in its taint. A rigid system of house to house examination, even now, after all that has been done, will disclose facts which if generally known would make our people shudder.

The authorities of our city have already done much, let who will complain, and complain some do in a bad spirit, and without making themselves acquainted with the facts and even misrepresent the facts which lie open before them—but there is a great deal yet to be done. The city have just completed the erection of a large public hospital which will accommodate a great number of persons—will relieve the pressure upon the Alms House by reason of the sickness, and admit of the Lapish House hospital being given up for the occupancy of families now forced into unfit dwellings. In the care of the sick and attention to the dying and the dead, the city authorities through the active, self-sacrificing and noble devotion of a few of its members, have done all that could be demanded by the tenderest humanity. The deeds of those men have been impressed upon many hearts and ought never to be forgotten—their fame deserves to be written, for perpetual remembrance, with the everlasting stars. But little comparatively has yet been attempted in the way of prevention of disease among the dwellings of those most exposed. Now something of this kind must be done or the cholera will linger about our city until doomsday.

Attention must first and primarily be directed to those families crowded in pestiferous locations—in stived dwellings and amidst filth, and who are too inert or indifferent to seek other abodes. Next the cleansing or closing or the preparation of those dwellings and their surroundings and appurtenances. Upon a broader scale there needs to be a general system of drainage by public common sewers.

In the first of these enterprises the public authorities can do but little except by invoking the cooperative efforts of the people as citizens and as christians. Our holy religion makes sincerity the test of sanctity and practical benevolence the test of sincerity—it recognizes the Fatherhood of God and the brotherhood of man and thus lays upon all the responsibility of being our brother's keeper. It is not enough that we say to those whom want and oppression has driven to our shores 'Live here in peace,' and then turn away in cold indifference. They must be assisted in acquiring the knowledge how to live. They must be aided in the necessary social culture. The wall of partition which has been erected between them and others proves instead of a protection to be the cause of peril and evil to the whole community. A new course must be adopted, and benevolence and religion and a prudent self protection, demand of all to entertain a care for the lowly and a regard for the elevation of those who without these aids will breed an infectious poisonous taint for all to breathe, and breathing to sicken and die.

Capital must be invoked, at least to protect itself in the preparation and fittings and adjustment of healthy dwellings.

And lastly all must be made to feel the imperative necessity of obeying the sanatary laws of the city and the State—not by proclamations merely—not by a mere show of effort and an outside and partial display to be seen of men, but in the actual and the real—reaching from cellar to garret—drains and vaults—outside and inside, thoroughly and everywhere.

☞ Some of the New York papers talk very hard on account of the slipping of the Cotton and bread markets through the Telegraphic wires, in advance of the regular express, for which the associated press pay. These complaints have become so frequent of late, that the most thorough investigation will probably be made into the facts of the case, and the delinquent office exposed. It is not an easy matter we should suppose, for the news to be put through without the knowledge of the operators in the principal offices on the line, and a combination to supersede a contract for the regular and safe conveyance of the intelligence by the steamers, ought not to be tolerated.

☞ It commenced raining a little, yesterday, but did not get much beyond the incipient stages. It would do one good to witness an old fashioned rain. Those interested in lumber on the upper waters of our river, have commenced holding earnest conferences here, as to what shall be done for the protection of their logs for the winter in case a freshet does not immediately arrive. The Mattawamkeag logs will probably come in, should there be a freshet within a fortnight or three weeks, but the Allagash lumber will probably be secured among some of the islands on the upper waters.

☞ The public schools in the city commenced the regular fall term on Monday last.

It is now stated that the telegraphic despatch announcing that a warm correspondence has taken place between Mr Clayton, Secretary of State, and Mr Crampton, the British Charge d' Affairs at Washington, with reference to the navigation of San Juan river, in the State of Nicaragua, is entirely without foundation; not a letter upon the subject has passed between those gentlemen. It will probably be the subject of diplomatic discussion between the government and British Minister, Sir Henry Lytton Bulwer, when he assumes the duties of the office at Washington.

☞ The sixth Annual Meeting of the Maine State Musical Convention, will be holden at Augusta, on Wednesday, October 17th, 1849, at 9 o'clock, A. M, and the Teachers' Class under the sanction of the Association, will commence its session on the same day, at ten o'clock, A. M, and will continue the seven days following, (except the Sabbath,) closing on Tuesday evening, Oct 23.

The class will be under the direction of Messrs Lowell Mason and Geo. J Webb.

The Newburyport Union states that the Government has refunded the money with interest, which was raised by the ladies of that town for the relief of the volunteers under General Cushing. The Boston Herald adds that the ladies intend to create a fund out of the money for the relief of the poor and destitute of their town.

☞ The Ensign, a temperance paper which was published for six months in this city has been removed to Portland and is now published by Messrs Thorndike & Rollins. Mr J. B. Hall of this city, the former editor will be its associate editor, located in this city.

☞ We have received from Bath the first number of the Weekly Mirror published by Messrs. Haines & Wing, and by them conducted. It is very neat in its appearance of small size of a miscellaneous character and well designed to please the general reader.

☞ On Tuesday last another link was added to the great Eastern Telegraph line by the opening of the office at Sackville, N. B., about 130 miles east of St. John, and on the line to Halifax.

☞ The Freewill Baptists of New Hampshire are about holding a convention to make arrangements for publishing a "Literary and Religious Review," devoted to the interests of that denomination.

Illustrated Shakspeare, No. 2.

Mr. Bugbee has received the second number of Phillips, Sampson & Company's beautifully illustrated edition of Shakspeare, containing The Two Gentlemen of Verona.

A new Jewish Synagogue has been consecrated in Boston recently. Mr Rosencale, a Pole by birth, officiated on the occasion, and delivered a discourse in Hebrew.

☞ The public lots in No 10 range 12 west from the east line of the State, will be located by a committee on the 27th day of October, at the Dam at the outlet of Churchill Lake.

[illegible] lots in Piscataquis county will be sold at auction at Dover Court House, on the seventeenth day of October.

☞ Mr Cassidy is now exhibiting his Panorama of the Mississippi and Ohio rivers at Calais.

It is stated that Hon George Bancroft is about to take up his residence in New York.

Another Difficulty.

General Taylor seems determined to make every backsliding Government, in its intercourse with our own, walk right up to the mark. The Bey of Tunis appears to be next in order. The Washington correspondent of the Baltimore Sun writes thus:—

A diplomatic difficulty is pending in relation to a claim of John Howard Payne, formerly Consul at Tunis, upon the Bey. Mr Payne, while our representative at the Tunisian Court, got the Bey, who is landlord of all the consular mansions, to agree to renovate the then failing one of the United States—just as his Highness was at that very moment doing for the consulate of Great Britain; but though the work was performed (and slowly enough, too) Mr. Payne was obliged to urge it onward by considerable advances towards the payment for it, thinking himself secure in being able to charge them upon the rent, which comes, on that station, out of the Consul's own pocket. Mr Payne's removal occurred before sufficient rent was due to cover his advances, and the Bey kept on promising until his creditor was fairly out of Africa, and then his Highness ceased to say anything more on the subject. The affair being brought before the State Department, President Polk ordered the Bey to be peremptorily applied to for payment; but his Highness still continued silent. President Taylor reiterated the order of his predecessor, until at length, the Bey hearing that a squadron was on its way to refresh his royal memory, directed the advances in question to be refunded; but saying at the same time, that more having been done to the house than he thought it needed, he, therefore, only agreed to pay the money out of compliment to his beloved friend, the United States Government, and not because he considered it ought to have been asked for by his aforesaid beloved friend. Either subtle intriguing or egregious blundering has since interposed actively to embarrass this affair, in consequence of which it seems likely that final justice can only be obtained, after all, by some new exertion of diplomatic skill and decision. There is little doubt but all will come right eventually, as it has been thus far conducted with an address and vigor by Mr Clayton which promise the most satisfactory results.

Sweet Flag Preparation.

We have received, from Mrs. Bela Hubbard, a specimen of the sweet flag preparation, to which allusion was made in the Farmer a few numbers back, together with the following recipe. We tender our thanks for the very agreeable treat; it is certainly quite a luxury in its way, and as healthful to the system as it is pleasant to the taste, the flag being thus divested of its pungency, while it retains its peculiar aromatic flavor in a mild form.

Recipe.—After peeling, slice the roots, put them into cold water, and boil until the strength is reduced to the degree that is desired: then make a thick syrup of sugar and water, in which boil the flag stirring constantly until the syrup becomes candied and dry, the flag being completely coated and saturated with it.—Michigan Farmer.

A California company of twenty members with shares of $1000 each, is forming in Cambridge, and will soon start for the gold regions. They are erecting a hotel to take out with them. Another hotel is being constructed in Cambridge by W T Mason, which is designed for California.

Tariff and American Industry.

The Boston Courier has recently published an interesting article on the above topics, from which we extract the following:

"The treasury of the United States has been grossly defrauded by Mr Walker's *ad valorem* system of duties. That gentleman and all his party were told over and over again, beforehand, that this would be the inevitable result. But there are some people who will not believe that knives have edges till they fairly cut their fingers.

"We are told by the advocates of the tariff of 1846, that it would diminish prices and increase the revenue. Mr. Walker in his estimates of the production of his tariff, stated that sugar at the duty of thirty per cent. would produce to the treasury $150,000 more than under the tariff of 1842. Last year there was an excess of seventy million pounds of sugar imported, and the revenue instead of being larger, fell short $300,000 of what was received the preceding year under the tariff of 1842."

"It is the opinion of every impartial and well-informed man, that the *ad valorem* system will drive every honest American importer out of business—It is a system which works altogether for the benefit of knavish foreigners, and to the ruin of the home merchant and conscientious dealer. Our merchants refuse to cheat the revenue. They leave the cheating to be done by the foreign importer. It is now the universal rule for the American importers to buy the goods from the foreign manufacturers the same as formerly, but *deliverable in the United States*, by which they can save from ten to fifteen per cent., instead of taking possession of them in Europe, and paying the full duty on the actual cost. This system of *ad valorem* duties gives therefore to the foreigner the double advantage of a fall in price and a fall in the duty, and when the home producer wants the largest protection against low prices abroad, the tariff gives him the smallest; when under high prices abroad, he requires *no* protection, then the tariff gives him a heavy one."

"Willfully and perversely blind must that man be who does not see in them overwhelming evidence of the mischief caused by the existing tariff—mischief to the Treasury of the United States—mischief to the whole country—and mischief to the individuals of the country. Who gains anything by the operation of the present revenue system? Knavish foreigners. Who else? Nobody, except a few demagogues who live by repeating the slang of "free trade." Who loses by this system? Every farmer, every laborer, every artisan, every honest dealer in honest calling in the United States. Let the truth be plainly stated to the people of the United States, and we shall see whether they are disposed to allow this system to stand another year."

No man with his eyes open to future consequences, (says the Courier,) can disguise to himself the pressing exigency which these matters are destined to assume before many months. California may be sunk to the bottom of the Pacific, and Canada may languish forever under British misrule, with less detriment to the American nation than will spring out of their neglect of native labor, and of a system which shall protect their own industry and enterprize. The anti-national and ruinous policy adopted by the late administration, must be discarded at the earliest moment. The revenue is cheated, the American merchant is driven out of trade, and the American artizan deprived of his bread, by Walker's Tariff for the benefit of foreigners. There is no denying this fact, and the press should "*keep it before the people.*"

The delinquencies of the last Administration appear to be by no means few; and while the Locofoco press are urging on the present Cabinet to extreme measures with regard to the abduction of Rey the fact stares them in the face, that more than one insult to our flag was permitted by the Polk cabinet to pass unnoticed. We have already referred to several of these perpetrated in Cuba. We have now another brought to light by a correspondent of the Baltimore Clipper. He says that a Mr S a distinguished lawyer of New York, called the attention of the late Secretary of State to the following facts. In the year 1832, the Minister of Holland resident at Washington, engaged this Mr S. to endeavor to recover the jewels, valued at one million of dollars, which had been stolen from the Princess of Orange. Public opinion having charged the Prince himself with the theft, the King of Holland was very anxious to secure the robber and thus vindicate his son, as Emperor of Russia. For this reason the minister promised Mr S, 20,000 dollars for his services for six months, successful or not, and large presents and ample enumeration, if successful. He devoted his whole attention to the matter, and succeeded in arresting the thief and recovering the jewels which the latter had on his person. They were restored to the Princess.—Mr S. however, could get nothing for his services, for upon applying to the Dutch Minister, he was told that $10,000 out of the $20,000 offered to him, *had been paid to certain persons for having forcibly abducted the thief from New York and delivered him in Holland.*

The lawyer visited the court of Holland, and in person made his application for payment, but was coldly refused. He called the attention of the late Secretary of State to the facts,—who promised to instruct Maj Davezac, our Minister at the Hague, to ask for a settlement of the claim. Whether this is done is not stated;—but Davezac has repeatedly written letters to persons in this country, stating that the whole subject was disagreeable to his Majesty, and that if he urged it, *he would become unpopular at Court!*

Thus it would appear that, for fear of unpopularity at a foreign court, a claim so just was allowed to pass unpaid. But by far the most serious part of the case is the abduction alleged by the Dutch Minister himself, and of which the late administration does not appear to have taken any notice.—U S Gazette.

How to Prosper in Business.

In the first place, make up your mind to accomplish whatever you undertake; decide upon some particular employment; persevere in it.—All difficulties are overcome by diligence and assiduity.

Be not afraid to work with your own hands, and diligently too; "A cat in gloves catches no mice."

"He who remains in the mill grinds, not he who goes and comes."

Attend to your business, and never trust it to another. "A pot that belongs to many is ill stirred and worse boiled."

Be frugal. "That which will not make a pot will make a pot lid."

"Save the pence, and the pounds will take care of themselves."

Be abstemious. "Who dainties love shall beggars prove."

Rise early. "The sleeping fox catches no poultry."

"Plough deep while sluggards sleep, and you will have corn to sell and keep."

Treat every one with respect and civility.—"Everything is gained, and nothing lost, by courtesy." Good manners insure success.

Never anticipate wealth from any other source than labor; especially never place dependance upon becoming the possessor of an inheritance.

"He who waits for dead men's shoes may have to go for a long time barefoot." "He who runs after a shadow has a wearisome race."

Above all things, never despair. "God is where he was." "Heaven helps those who help themselves."

Follow implicitly these precepts, and nothing can hinder you from prospering.

There is in Oregon an immense mountain, called Mount Hood, whose summit has for ages been covered with perpetual snow. It is not known that the foot of man ever pressed its summit; but, remarked an Englishman, who has long resided in Oregon, and witnessed the successive waves of immigration which come over the mountains, and in view of the hazards, labor and toil, "Why, if these Americans only undertake it, they will have a road over the summit of Mount Hood!"

That which hallows the cottage and sheds a glory around the palace—VIRTUE—shall never decay. It is celebrated by the angels of God—it is written on the pillars of Heaven and reflects down to earth.

Some curious student by diligent search has ascertained that the Bible contains 3,566,589 letters; 840,697 words; 34,153 verses; 1189 chapters and 66 books. The word 'and' occurs 46,227 times; the word 'Lord' 1854 times; 'reverend' only once, and that in the Psalms. The 19th chapter of the 2d book of Kings and the 37th chapter of Isaiah are alike. The first record of burial in a coffin was Joseph, in Genesis 50th chapter 26th verse. Nowhere but in the 1st chapter of 2d Timothy is the name of grandmother mentioned. Two particularly fine chapters to read are the 2d chapter of Joel and the 27th chapter of Acts. There is no word in the Bible of more than six syllables.

A Hoosier editor gives a very good reason for want of editorial matter, thus:

A little 'circumstance' in our domestic affairs, which is not likely to occur oftener than once in a year or two, must apologize for any deficiency in the editorial department.

CAUTION TO DRUGGISTS AND THE PUBLIC.

The unparalleled and astonishing efficacy of *Dr. Wistar's Balsam of Wild Cherry* in all the diseases for which it is recommended—curing many cases after the skill of the best physicians was unavailing—has affected a large and increasing demand for it. This fact has caused unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

BE NOT DECEIVED BY IMPOSTERS.

The public should be careful to get the *genuine article as the imitations and counterfeits, being put up by those who know nothing of medicine, or of the diseases of the human system, are entirely unsafe and dangerous.*

EXAMINE CLOSELY BEFORE PURCHASING.

The genuine Balsam is put up in bottles, with the words "DR. WISTAR'S BALSAM OF WILD CHERRY, Phila," blown in glass,—each bottle bearing a label on the front, with the signature of

H. WISTAR, M. D.

This will be enveloped hereafter with a wrapper copy-right secured 1844, on which will *always appear the written signature of "I. BUTTS."* Any one counterfeiting the label or wrapper, or forging the signature of the General Agent, will be punished with the utmost rigor of the law.

A New Pattern for 1849.

AMONG a host of competitors THIS STOVE, for its superior advantages, took the first premium at the American institute, city of New York; at the Hartford County Fair Connecticut, at the Worcester Co Fair Massachusetts; and Franklin Institute, Philadelphia

One very important improvement in this Stove is the patent *Broiling Chamber* (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices and giving steaks the same fine flavor and pleasant twang of the best charcoal broil (it being equally well adapted to toasting, roasting or frying,) with the draft to the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling The broiling department is always ready being operated by the same fire required for other purposes, and not interfering with any other part of the cooking

The flues being the entire width, and passing directly around the oven applies the heat to all parts alike The oven for Baking is not equalled by any Stove in use *Warranted as above for thirty days*

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last although we could find no recommendation in your circulars for cases like hers, we thought as she was in very delicate health we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame [illegible] all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with fine, healthy offspring

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life*" should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon [illegible] Costiveness Cramps, Swelling of the Feet, [illegible], Heartburn, Vomiting, Pain in the Back [illegible] False Pains, Hemorrhage and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully very few cases require any other medicine—some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk and a variety of preparations generally in use when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation which, when nature is not thwarted by disease or powder or the skin inflamed by the alkalies used in soaps beautifies its own production in the [illegible] as well as [illegible] delicately tinted and variegated flow [illegible] the healthful circulation of the fluids [illegible] blood to the extremities [illegible] countenance in [illegible] which imparts [illegible] loveliness that [illegible] the offspring [illegible] not [illegible] If the [illegible] pale and use cosmetics [illegible] impure [illegible] yellow [illegible] to the [illegible]

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have [illegible] *great remedy for females* [illegible] and have copied our bills and circulars which relate to the complaints of women word for word—other men who put up medicine have since the great success of Dr Townsend's Sarsaparilla in complaints incident to females recommended theirs although previously they did not A number of these Mixtures Pills, &c are injurious to females, as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house unprecedented

HART'S VEGETABLE EXTRACT

Is the only [illegible] ever [illegible] for the permanent cure of Spinal Complaints Spasmodic Contractions Irritation of the Nerves Nervous or Sick Headache, Nervous Tremors Neuralgic Affections, Apoplexy Paralysis, General debility Deficiency of Nervous and Physical Energy and all Nervous Disorders, including the most dreadful of all diseases that ever affected the human race

EPILEPTIC FITS,

or Falling Sickness Hysterical Fits, Convulsions, Spasms &c Dr Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases As its tendency is to insanity madness and death the most

SKILLFUL PHYSICIANS

of Europe as well as those of our own country have pronounced Epilepsy incurable And it has been so considered by many, until this most important of all discoveries was made by Doctor S Hart, nearly six [illegible] years since, during which time he has been performing some of the most

REMARKABLE CURES

upon record, and has acquired a reputation which time alone can efface Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends who are thus afflicted as the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness" Another says, I thank God I feel that I am a well man I also feel it my duty to proclaim it to the ends of the earth that those similarly afflicted may find relief Another (who is a)

EMINENT LAWYER,

and well known in [illegible], says "My son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract Its fame," says he, "should and ought to be sounded to the ends of the earth" Another says, Language is entirely inadequate to express my gratitude to Dr Hart, for having been the means, under the blessing of God, of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty three years, and my morning and evening oblations of praise and thanksgiving shall continue, as long as God who has afflicted but to make me whole

Mrs J Bradley, 150 Christ street, New York states that she has been subject to Fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover Russell co, Alabama, who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he unhesitatingly prescribes it in every case of Epilepsy which come under his knowledge

Curtis G Mayberry Esq formerly Postmaster at Lime Mills, Crawford Co, Pa, now living in Erie Co Pa states that for many years past he has been sorely afflicted with Fits, and he is now happy to state that a persevering use of Dr Hart's Vegetable Extract has restored him to sound health, being entirely freed from that worst of all diseases

Mr Stephen E Platt, corner of Sixth Avenue and Twenty six h Street New York states that Mr Charles L Boughton, a member of his family, has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business Having used Dr Hart's Vegetable Extract (says Mr P) he was soon restored to perfect health, and left this city for the State of Ohio to resume his business

Rev Mr Smith Rector of St Peter's Church, Spotswood, New Jersey who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Secore Esq of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months—After travelling through England Scotland, Germany and France consulting the most eminent physicians and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever and was cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with him, which I did I first visited England I consulted the most eminent physicians there in respect to his case, they examined him and prescribed accordingly I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November, with my son as far from being cured as when I left I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason, which was so far gone as to unfit him for business is entirely restored, with the prospect now before him of life health and usefulness He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health

Now, sir, faith without works I don't believe in—To say I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars, I have no doubt you will think this another and quite a different thing The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully,

Signed) WILLIAM SECORE.

DR CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished physicians both in Europe and the United States to be the most valuable medicinal discovery of the age

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving tone to the various organs and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM Acute and Chronic, GOUT EPILEPSY, LUMBAGO, DEAFNESS NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause namely

A Derangement of the Nervous System.

In NERVOUS COMPLAINTS Drugs and Medicines increase the disease for they weaken the vital energies of the already prostrated system while under the strengthening, life giving vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery the exhausted patient and weakened sufferer is restored to former health strength elasticity and vigor

The great peculiarity and excellence of

Dr Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application* in place of the usual mode of drugging and physicking the patient till exhausted Nature sinks hopelessly under the infliction

They strengthen the whole system equalize the circulation of the blood promote the secretions and never do the slightest injury under any circumstances Since their introduction in the United States only three years since more than

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up and every thing else been tried in vain

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization DYSPEPSIA or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken which by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state, and with injured faculties after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer even in the worst symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

The following letter narrating one of the most remarkable cases in the annals of Medical science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation —

Sidney New Jersey, July 12 1848

Dr A H Christie—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men, but here their prescriptions failed About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties I became subject to a severe Chronic Rheumatism which for year after year caused me indescribable anguish In the severer paroxysms all the skill of my physicians sometimes afforded me great relief but this relief was only temporary Farther in the winter of 1845 and 46 in consequence of preaching a great deal in my own and in various other churches in this region I was attacked by the Bronchitis which soon became so severe as to require an immediate suspension of my pastoral labors *My nervous system was now thoroughly prostrated* and as my Bronchitis became worse so also did my Dyspepsia and Rheumatic affection thus evincing that these disorders were connected with each other through the medium of the Nervous System, My sufferings were indeed severe and I had no prospect other than being entirely laid aside from the discharge of those duties and the performance of those labors in which my soul has ever found the highest of her joys

Reasoning from effect to cause I concluded that the *Nervous System* must be reached before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole pharmacopoeia there seemed to be no remedial agent which could reach and recuperate my Nervous System every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID This was in June 1848 TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract My Dyspepsia has *never returned*, the Rheumatism once in a while visits me but not severely and is easily arrested and is manifestly being driven from its hold upon my system and my Bronchial affection is *entirely cured* Such is the wonderful and happy result of the experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, WITH HAPPY RESULTS I BELIEVE IN EVERY CASE

I am, dear sir, very respectfully yours

Many hundred Certificates from all parts of the country of equally extraordinary character could be given

No trouble or inconvenience attends the use of DR CHRISTIE'S GALVANIC ARTICLES and they may be worn by the most feeble and delicate with perfect ease and safety In many cases the sensation attending their use is *highly pleasant and agreeable* They can be sent to any part of the country

N. H. DOWN'S Vegetable Balsamic Elixir, The Great Northern Remedy for Consumption!

ALSO the most effectual remedy in the world, for Colds Coughs Whooping Cough Croup or Quinsy Asthma Pain in the Side or Stomach, and all diseases of the LUNGS AND LIVER.

This medicine is purely vegetable and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should soothe—never dries up the cough leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting* then removes the cause, *eradicating it completely* from the system when as a matter of course the *cough ceases,* and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *visible and insensible perspiration,* thus expelling by the pores of the skin, those nauseous fluids and impurities of the blood the retention of which in the system is the *sure precursor* of DISEASE SICKNESS AND DEATH

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence that for

CONSUMPTION,

And all all diseases of the *lungs the liver and the pulmonary organs,* it is *unrivalled—unequalled*—HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed so long as to see,* have found, in the advanced state of their disease that RELIEF FROM SUFFERING which they had vainly sought from every other source

THIS INVALUABLE MEDICINE *is highly concentrated* and put up in 2 oz and 4½ oz bottles at fifty cents and one dollar per bottle and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents*

Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn Brown or Black Sandy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye

Of one preparation, which is entirely different from all other preparations of Hair Dye how before the public It is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations after the Hair is colored and dry, will not rock, face, or wash out

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade, from a white to a jet black

It is now used to an unaccountable extent, by persons who have prematurely turned gray and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

COSSACK SALVE!

An Invaluable Remedy

FOR Fever Sores Rheumatism Swelling of Feet and Limbs Swelling of the Jaw Sore Throat, Chronic Eruptions of the Skin all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains Stiff Neck Chilblains or Chapped hands, Sore or Inflamed Breast Weakness Pains in the Stomach Piles Corns Warts Common Sores and Cuts and Bruises of all

In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of "All Healing Ointments and Panaceas that are now advertised as 'most effectual'" and certain cures for all diseases indiscriminately to which man or animal are subject

A history of this Salve and the wonders it has effected in the above complaints may be found in a pamphlet accompanying each box reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at a considerable trouble and expense, not as a matter of speculation and profit [illegible] in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal healing properties

To say indeed, that we do not expect to receive a handsome remuneration for our services would be alike useless and untrue But we flatter selves that ere, forsooth, we are richly paid at [illegible] soon, very soon has an extensive [illegible] Public are receiving a full and ample equivalent

As we have already intimated we [illegible] shall not call to our aid the empty puffs [illegible] Press, or the bought certificates [illegible] and shall make use of them only so far as have been or hereafter may be entirely [illegible] and *unsolicited*

The Salve is now before the Public

They, and they alone will decide [illegible] virtues and medicinal properties To [illegible] were injustice to ourselves—to say more [illegible] superfluous

Here are some of the many Certificates —

The subscriber was afflicted with a Fever Sore upon his leg for about six years and in the fall of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A McKenny and continued its application till I had used six boxes, which entirely cured me and I have had no return of the disease since I would also say that I know the above Salve to be an excellent remedy for Corns, one of my family having used it for that purpose with complete success

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars I bought 14 oz of JONATHAN McKENNEY'S Salve which effected an entire cure in less than 3 months
